# ADVANCED MANUFACTURING TECHNOLOGY

---

Our quality is not only due to its excellent functional design, but also from advanced manufacturing techniques. The application of fully automatic intelligent manufacturing enhances quality further, improves accuracy and stability of products, bringing ongoing product reliability and great user experience.

Italian IMR gravity casting to produce fine faucet bodies in whole piece with smooth inner surface and high density of brass.

Automatic CNC machining centers to ensure high precision of inner structure.

80% of the machining procedure done at one setting due to efficient computerized programming and large capacity of the tool magazine.

Automatic robotic polishing to guarantee a perfect finish on every product.

Automatic plating lines to ensure the stability of the highest quality product finishes that can never be achieved using manual methods.
