ADVANCED MANUFACTURING TECHNOLOGY

Our quality is not only due to its excellent functional design, but also from advanced manufacturing techniques. The application of fully automatic intelligent manufacturing enhances quality further, improves accuracy and stability of products, bringing ongoing product reliability and great user experience.

Italian IMR gravity casting to produce fine faucet bodies in whole piece with smooth inner surface and high density of brass.

Automatic CNC machining centers to ensure high precision of inner structure.

80% of the machining procedure done at one setting due to efficient computerized programming and large capacity of the tool magazine.

Automatic robotic polishing to guarantee a perfect finish on every product.

Automatic plating lines to ensure the stability of the highest quality product finishes that can never be achieved using manual methods.

QUALITY RAW MATERIALS

SHOWER TECHNOLOGY

The design of rainshower outlet fully helps save water, without reducing any comfort.

Air-Injection rainshower

Infuse air into water to create soft and full rain droplets.

Water-saving

Environmentally friendly by the efficient use of water.

Easy to clean

Silica gel spout, easy to clean and anti-clog.

SMARTBOX

SMARTBOX makes the wall-embedding simple and clear. SMARTBOX has multiple fixing and locking ways. Thus it is suitable for any wall structure. SMARTBOX can match other handles or cover plates of concealed 4-way and 5-way mixer with diverter.
