GRANITECH Sink

GRANITECH
Color Selection

When it comes to choosing the perfect kitchen sink, PALOMA **GRANITECH** kitchen sinks come in a variety of beautiful colors to enhance the aesthetics of your space. Imagine the sleek elegance of granitech black, adding a modern and sophisticated touch to your kitchen. Imagine the timeless charm of granitech grey, blending seamlessly with a variety of design schemes and providing a subtle yet elegant appeal. Or, imagine the natural beauty of granitech white, bringing a sense of purity and brightness to your culinary paradise.

Exploring the Advantages of **GRANITECH** Sink

Naturally Silent

Granite surfaces don't make loud noises when objects touch or collide with them. The resulting sound is very quiet and doesn't cause ear-splitting noise.

Hydrophobic Effect

The sink has a hydrophobic effect, meaning it repels water. This can contribute to easier cleaning and prevent water stains or build-up on the sink's surface.

Stain Resistant

Resistant to stains. Spills of coffee, tea, or colorful foods are easily wiped away without leaving stubborn stains, keeping the sink looking clean and pristine. Its making easier to clean and preventing discoloration.

Dirt-Repelling Effect

This feature suggests that the sink's surface has properties that repel dirt, making it easier to clean and maintaining a cleaner appearance.

Heat & Frost Resistant

The sink can withstand exposure to high temperatures and is resistant to damage from common household chemicals, ensuring its durability and longevity.

Acid & Alkali Resistant

Acid- and alkali-resistant granite, capable of withstanding damage from contact with strong acids or bases. It is non-corrosive, insoluble, and chemically degradable when exposed to hazardous chemicals.

Scratch & Crack Resistant

Designed to withstand scratches and resist cracking, ensuring its durability and maintaining the sink's aesthetic appeal and structural integrity.

Color-Fading Resistant

This feature ensures that the sink's color remains vibrant over time, resisting fading due to exposure to light or other environmental factors.

Food-Safe & Hygienic

Constructed with materials that are safe for contact with food, and its design promotes hygienic conditions, preventing the growth of bacteria and ensuring the safety of food preparation.

Mold & Mildew Resistant

Designed to resist the growth of mold and mildew, contributing to a healthier and more hygienic kitchen environment.

Non-Toxic

Granite does not contain toxic materials that can be harmful to the body.

Non-Porous

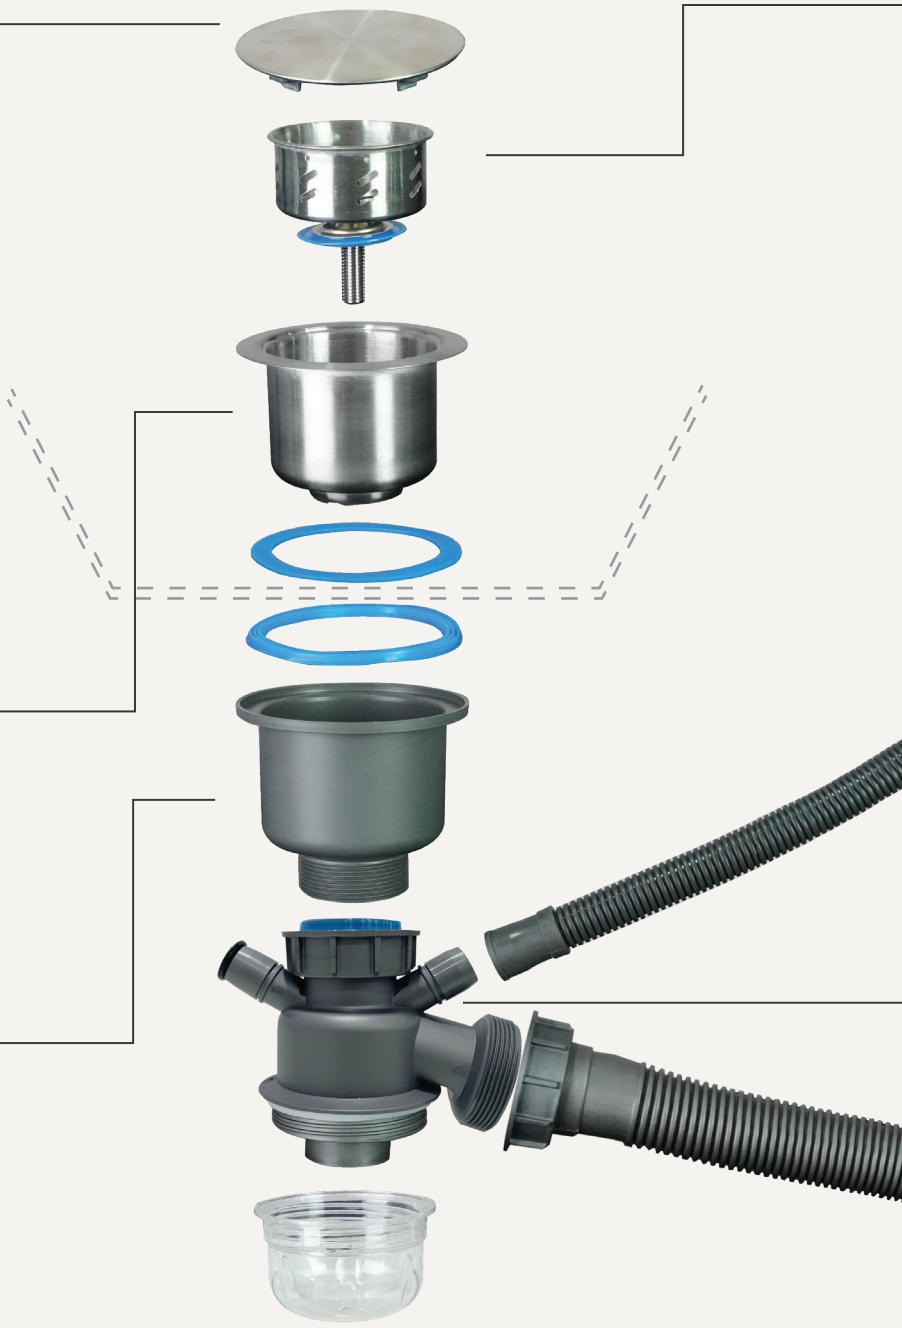

The granite surface is non-porous so it looks smooth.

GRANITECH Sink Drain System

Beauty Drain Cap - Always On, Always Flowing!
Material: Stainless steel SUS 304

The drain cover is designed to conceal unsightly holes.

Extra Benefit: Always On, Always Flowing!
The cover allows water to continuously flow into the drain, even when installed, serving as a first-stage filter. Unlike commonly found products, where installing the cover stops the water from flowing to the drain.

Large Drain Bowl
Material: Stainless steel SUS 304

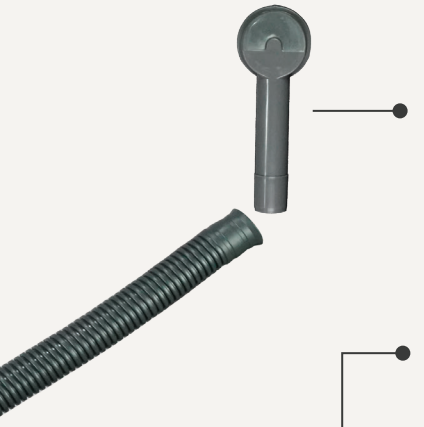

Crafted with a sturdy and robust design, a large-sized drain ensures swift water flow for efficient waste water drainage.

High Grade PP Drain Body
Material: Polymer Polypropylene

Heat resistant, thicker & stronger, new material.

Basket Strainer with Integrated Flow Stop
Material: Stainless steel SUS 304

A basket-shaped strainer, designed as the second stage of filtration to capture small debris. Water can continue to flow into the drain effortlessly even with a significant amount of debris in it.

Overflow
Featuring an overflow hole to prevent water overflowing from the sink while it's filled with water.

Siphonic Bottle Trap
Ensuring a fresh and hygienic kitchen environment with our 100% odor-proof and insect-resistant bottle trap design.

Extra Benefit: Transparent Check-Out Hole
Check the condition without having to open it. The trap lid can be opened from the bottom without dismantling the pipe. It's easy to clean if it's clogged or to retrieve dropped valuables.

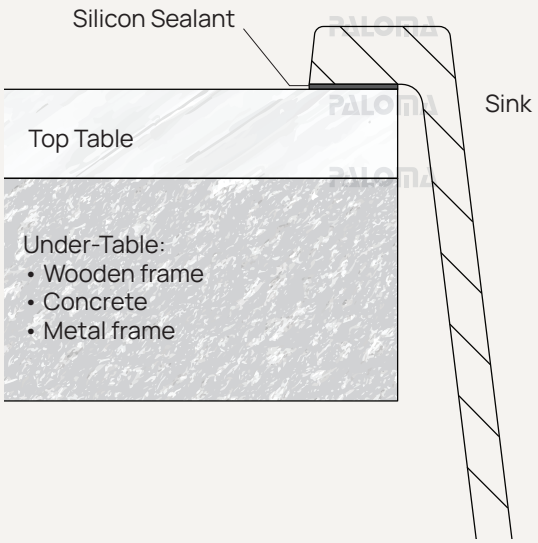

Drain Hose
Flexible, thick, and durable.

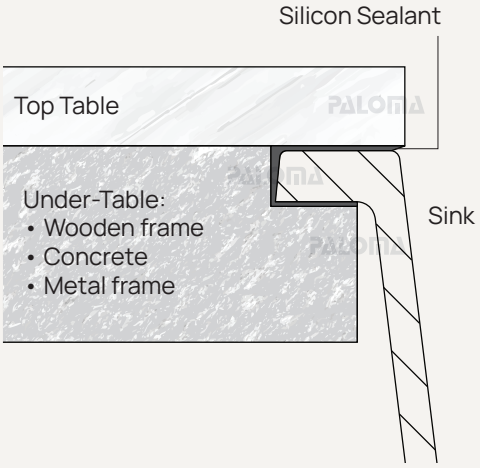

Installation
Types

GRANITECH sinks can be installed in various methods according to your kitchen design.

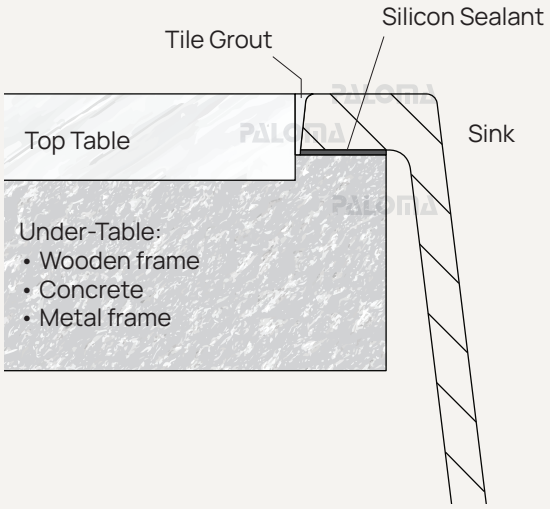

Top-Mount
- Classic look
- Easier installation

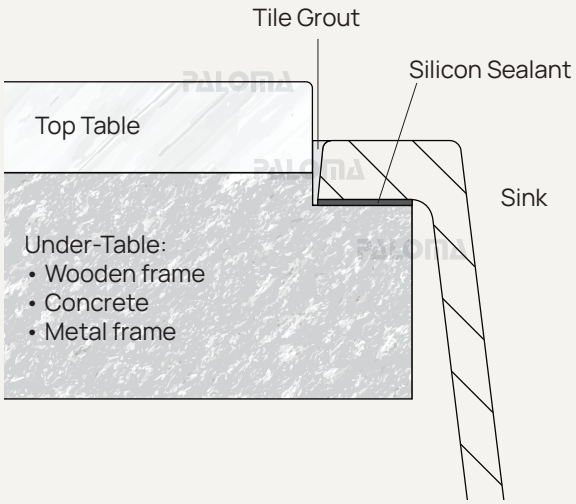

Under-Mount: No Reveal
- Modern look
- Flat and easy to clean top surface

Flush-Mount
- Classic look
- Flat and easy to clean top surface

Under-Mount: Full Reveal
- Classic look
- Flat and easy to clean top surface
- Apply this method on sinks with faucet ledge to catch dripping water from user's hand when closing the faucet

Recommendation:

- Top table thickness 10mm to 30mm.
- Supporting under-table thickness 20mm to 50mm.
- Use the same color tile grout and silicon sealant as the sink or top table to get a better seamless look.
- Bolts and clips are provided, only to be used for under-mount no reveal installation without supporting under-table.
- Installation with supporting under-table does not need bolts and clips.
